

Keynote Speaker on the Future, Innovation, and Transformation

Prof. Dr. Moritz E. Behm

Prof. Dr. Moritz E. Behm is a keynote speaker on future-ready skills in the age of AI and helps companies translate artificial intelligence, innovation, and transformation into better decisions, more effective structures, and genuine competitive advantages. As a professor of innovation and transformation management, an internationally experienced management consultant, and a keynote speaker, Moritz Behm combines academic depth with practical business experience. He speaks to companies facing one of the central leadership questions of our time: How do we remain capable of making decisions, innovative, and competitive when artificial intelligence, technological dynamics, and uncertainty are changing the rules of our…
