Head of Capgemini's Generative AI Accelerator - AI Thought Leader, Supervisory Board Member

# Daniela Rittmeier

Daniela Rittmeier is a supervisory board member, distinguished thought leader, C-level advisor and head of Capgemini's Generative AI Accelerator. She has more than two decades of experience in initiating, developing and implementing complex transformations in areas such as life sciences, healthcare, automotive and information technology. The hype surrounding the possibilities of generative and agent-based AI is immense. Although artificial intelligence (AI) has been around since the last century, the introduction of generative applications that are easy to use in everyday life, such as ChatGPT, has greatly increased interest in this technology and led to its unprecedented spread. Daniela Rittmeier's Lecture…
