

Expert in Robotics, Artificial Intelligence, Robo-Bots & AI Bots

Lukas M. Ziegler

Lukas M. Ziegler is one of the most influential minds in the field of robotics and artificial intelligence worldwide. As an entrepreneur, technology evangelist, venture partner, and university lecturer, Lukas Ziegler is at the forefront of technological developments—where deep tech meets communication, capital, and social relevance. After more than a decade of practical work in robotics, Lukas M. Ziegler founded a specialized boutique marketing agency that serves international technology companies such as Amazon, NVIDIA, Intel, KUKA, ABB, Siemens, and Boston Dynamics. His goal: to make robotics understandable, accelerate innovation – and do so on a global stage. Lukas M. Ziegler…
