Dietmar Dietmar

“Those who understand the universe understand themselves.” – Dr. Dietmar Hager Dr Dietmar Hager is the doctor with a view of space. He combines two worlds that at first glance seem incompatible – high-performance medicine and the depths of space. As a renowned specialist in trauma and hand surgery, he knows how to work with millimetre precision inside the human body. As an award-winning astrophotographer and official ESO Outreach Ambassador, he regularly turns his gaze far out into space – to the limits of the visible universe. In his lectures, he combines these perspectives to create a unique and inspiring…
