

Founder of Open Global Mind – Futurist, Trend Analyst & Technology Expert

Jerry Michalski

Jerry Michalski is a thought leader at the intersection of technology, society and trust. As the founder of Open Global Mind, he explores how people can make better decisions together. For over 30 years, he has been analysing technological developments, particularly in the context of artificial intelligence, digital ecosystems and human collaboration. His unique perspective: innovation begins with trust. Jerry Michalski Lecture topics Signature Keynote: Making the impossible possible – Rethink your limits What we take for granted today – such as a talking smartphone with access to all the world's maps – was once considered unthinkable. In this inspiring...
