

Futurist & Thought Leader on Innovation, Future Leadership, AI & Business Transformation

Nick Jankel

According to MSN, Nick Jankel is one of the top 10 keynote speakers worldwide and is considered a leading expert on transformative leadership and innovation. For almost 30 years, he has been at the forefront of change, advising international companies, institutions and governments – including Google, LEGO, Pfizer, Unilever, HP, No. 10 Downing Street, Neom, Merck, Virgin and SAP. The Cambridge-trained physician is the developer of the neuroscience-based BTX® method for managing change and transformation processes. He has used this method to coach over 100,000 executives and advise more than 100 Fortune 500 companies. As a futurist and thought leader...
