Mental Health Expert, Leadership & Education Expert

Franziska Brandmeier

Franziska Brandmeier is a Futurologist, Neuroscientist and Mental Health Expert. Franziska Brandmeier speaks about mental strength where it actually matters: under pressure, in complexity, and in real decisions. She combines training in Neuroscience & Psychology (King's College London) with hands-on experience in finance/capital markets and business development – environments where communication, narratives, and performance are not "nice to have," but business-critical. Franziska Brandmeier Keynote topics Franziska Brandmeier's keynotes are positioned at the intersection of neuroscience, mental health, leadership, culture and artificial intelligence. At their core is one central question: How do people remain clear, capable of making decisions and connected…
