Co-founder of Tomorrow University of Applied Sciences – expert in entrepreneurship, innovation and learning models

Prof. Dr. Thomas Funke

Prof. Dr. Thomas Funke is co-founder of Tomorrow University of Applied Sciences and an expert in entrepreneurship, innovation, sustainable learning models and leadership in transformation processes. He combines over 20 years of experience in academia, start-up ecosystems and corporate practice. His career began at the Vienna University of Economics and Business (WU Vienna), where he researched and taught in the field of entrepreneurship and innovation. Early on, he asked himself a key question: How can ideas be turned into viable business models with a real impact? After several years in academia, Dr. Funke made a conscious decision to move into…
