

Physical AI / Robotics Strategist & Deep Tech Pioneer

Dr. Justinas Miseikis

Dr. Justinas Mišeikis builds AI systems and the business models around them. He has done both for over a decade. Justinas Mišeikis is Strategy & Partnerships Manager at Sony in Zürich, where he helps turn research from world-class AI labs into real products. Before that, he built robots: in startups, in research labs, and in industry. He holds a PhD in Robotics and Computer Vision, an Executive MBA, more than 40 patents, and 15+ scientific publications with 700+ citations. That combination matters. Most AI speakers can explain the technology or the business case. Very few have shipped both. “AI is…
