

AI Strategy Expert & Deep Tech Pioneer

Dr. Justinas Miseikis

Dr. Justinas Miseikis is an AI strategy expert, robotics specialist, and keynote speaker who combines deep technological expertise with real-world business execution. As Strategy & Partnerships Manager at Sony AI, he operates at the intersection of research, product development, and market deployment. His focus is on turning artificial intelligence into real-world applications and scalable business models. He holds a PhD in Robotics and Computer Vision and complements his technical background with an Executive MBA. With more than 15 publications and over 40 patents, he is recognized as a leading expert in deep tech and AI commercialization. "AI is not an IT..."
