

Specialist in neurosurgery, Engineer & Strategic Consultant on medicine, Longevity, Digital Health and Systems Thinking

Dr. Roxana Mittler-Matica

Dr. Roxana Mittler-Matica is a neurosurgeon, engineer and strategist in health innovation, and one of the leading voices at the intersection of medicine, longevity, prevention, digital health and system transformation. With her unique combination of medical training, industrial engineering and many years of clinical experience, she brings surgical precision, systemic thinking and a forward-looking perspective to the stage. Her international education, her work in neurosurgery, neuroradiology and digital healthcare, as well as her current leadership role as a consultant in the field of preventive health, make her a sought-after expert and speaker on the future of healthcare.
