AI and Robotics Expert, Philosopher & Entrepreneur

Dr. Rolf Pfister

Dr. Rolf Pfister is a renowned AI and robotics expert, philosopher, and entrepreneur who bridges the gap between theoretical AI research and its practical application in business. As Co-founder and Director of Research at the AI research institute Lab42 in Davos, Switzerland, he leads the research agenda for the development of human-level artificial intelligence. With a doctorate in the philosophy of science from LMU Munich, he researches the fundamental principles of theory formation, insight gain, and intelligence. Rolf Pfister lecture topics Beyond the Hype: The Long Road to Human-Level AI – And Why Generative AI Isn't the Solution From Science…

Topics

- Artificial Intelligence / Robotics
- Asia / China
- Big Data / Open Data
- Digital Transformation / Digital Disruption
- Futurist / Think Tank
- Global Trends
- Humanity
- Industry 4.0

Languages
