

Climate researcher, Climate scientist & Professor of Climate Physics at ETH Zurich

Prof. Dr Reto Knutti

Reto Knutti is a climate physicist and full professor of climate physics at ETH Zurich. He earned his Ph.D. in physics in 2002 and spent several years as a postdoctoral fellow and visiting researcher at the National Center for Atmospheric Research (NCAR) in Boulder, Colorado, before joining ETH Zurich as a professor in 2007. Prof. Dr. Reto Knutti's research focuses on the global climate system, particularly on changes caused by anthropogenic greenhouse gas emissions. By combining an understanding of physical processes, observational data, climate model simulations, and statistical methods, he has made significant contributions in this field. His work plays…
