

Expert for Innovation & Creativity

## Gerriet Danz

Gerriet Danz has been one of the most recognised experts on innovation and creativity for more than two decades. The lectures given by this passionate rule-breaker, multiple start-up founder and best-selling author (CAMPUS/Randomhouse) are as inspiring and unusual as the mix of his experiences. He initially worked as creative director at the international advertising agency BBDO, supporting global players in the development of innovations. His second career took him to television, where he developed new TV formats and hosted the classic quiz show JEOPARDY. Motivational, humorous and practical, his presentations show companies how to create the perfect climate for innovation...
