

Darknet expert, IT journalist, successful book author

Stefan Mey

Stefan Mey is an IT journalist. He wrote the tone-setting Darknet book in the German-speaking world, which is now also available in Hungarian and South Korean. As a digital expert, he has given more than 50 interviews, for television, radio, print, online and in podcasts. Since the beginning of his journalism career, he has critically examined the power relations in the digital world: who calls the shots economically, why, and what are the consequences? He not only describes the problems of the digital world, but also has answers at the ready. In lectures and workshops on “digital self-defence”, he explains...
