

Expert on Artificial Intelligence & Robotics

Rafael Hostettler

Rafael Hostettler & Roboy: Artificial intelligence and robotics will change our society like no other technology since the invention of the steam engine. Then, it allowed us to go beyond the limitations of our bodies, now, we increasingly enter a world where we overcome the limitations of our minds. One of mankind's greatest opportunities, if we do it right. Speaking Topics Rafael Hostettler & Roboy: – At the End of our work? How automation and AI might end the dictate of work – if we want it to. – Roboy & Lucy – a robot, cross-medial content, one goal: preparing...
