

Management consultant, partner for startups and founder of boot.AI

Florian Schild

Florian Schild passes on his knowledge in the field of artificial intelligence that he has gained over 19 years to established companies as a keynote speaker.

In his lectures he shows executives and entrepreneurs how artificial intelligence is applied today and in the future and which social processes of change are implied. Florian Schild gives valuable impulses on how the conception of AI products, platforms and strategies, the creation of agile AI teams and the automation…
