Economist, Journalist & Author

Ranga Yogeshwar

Ranga Yogeshwar was born in Luxembourg in 1959, the son of an Indian engineer and a Luxembourg artist. He spent most of his early childhood in India. After graduating from high school in Luxembourg, he studied experimental elementary particle physics and astrophysics and worked at the Swiss Institute for Nuclear Research (SIN), CERN in Geneva and the Jülich Research Center. Ranga Yogeshwar began his journalistic career in 1983, first with various publishing houses, then in radio and television. In 1987, he became an editor at Westdeutscher Rundfunk Cologne and later headed the science department. Since 2008, Ranga Yogeshwar has been…
