

Former football professional

Daniel Engelbrecht

It's 2013: During a championship game, Daniel Engelbrecht collapses unconscious and lifeless with cardiac arrhythmia. His life is on a knife edge and miraculously he returns to life. But this life was never to be the same. Heart muscle inflammation brings him to his knees. Doctors tell him that his career as a professional soccer player is over. His heart has not fully recovered. His world collapses and his dream shatters. Daniel Engelbrecht is 22 years old when he suffers this blow of fate. Ever since he was a child, Daniel Engelbrecht has had the dream of one day becoming...
