Global Leader in Artificial Intelligence & Digital Transformation - Founder of SwissCognitive

Dalith Steiger

Dalith Steiger-Gablinger is the speaker for executive audiences who want to understand what AI changes in their business, where value will emerge, and what leadership must do next. Dalith Steiger-Gablinger is an internationally recognized AI strategist, entrepreneur, board advisor and keynote speaker. She helps boards, CEOs and executive teams understand what artificial intelligence changes in their business—and what leaders must do next. Since 2014, Dalith Steiger has worked at the forefront of AI and its impact on business, leadership and society. Her keynotes go beyond technologies and individual tools. She explores how AI is reshaping value creation, competitive advantage, the…
