

Entrepreneur, Expert in Sustainability, Climate Change & Mobility

Amir Roughani

Amir Roughani holds a degree in industrial engineering (FH), specializing in environmental management. Born in Iran in 1975, Amir Roughani came to Berlin as an 11-year-old during the Iran-Iraq war. There he spent his youth in a dormitory. At the age of 27, Amir Roughani founded today's VISPIRON group of companies in Garching near Munich, which currently employs around 500 people in the technology sector. The company provides solutions and services in the areas of Future ENERGY and Future MOBILITY for over 300 customers worldwide. Annual sales of around EUR 50 million are increasingly generated from renewable energies, which provide...
