

Senior researcher and strategist, Futures researcher

James Hoefnagels

James Hoefnagels studied public policy at the Willy Brandt School of Public Policy. While studying he gained his first experiences in the field of futures studies which is an interdisciplinary approach to explore various possible futures. Since his introduction to the field, he has completely immersed himself in everything from various methods, applications, and topics that are futures focused. Born and raised in Canada, he has provided a unique perspective when working for various futures institutes. He started as a junior associate at the Copenhagen Institute for Futures Studies, where he worked on topics such as the future of work,...
