

Expert for Sustainability & Resilience in Business

Prof. Dr. Christian Berg

Prof. Dr. Christian Berg deals with the topics of sustainability, innovation and resilience. How can we ensure that as many people as possible can live well without jeopardizing the future? What role does the economy play in this? What can companies do to operate more sustainably? How can the political framework help to set the right incentives for sustainability, and what can each and every individual do? Starting from the question of what holds the world together at its core, Christian Berg first studied physics and philosophy, and later theology. Through a dissertation on the relationship between theology and natural...
