

Management Strategist, Expert on digitalisation, modern leadership & adaptive intelligence (AQ)

Alex T. Steffen

Alex T. Steffen is a leadership and strategic innovation expert for Fortune 500 corporations and an international speaker at management events and conferences. His vision is a working world in which every human finds inspiration in their leader, feels empowered to do their best work and able to contribute to shaping a desirable future. In his lectures, he not only imparts sound knowledge, but also brings along his own practical experience. For example, you will learn how he became a problem solver in an oil field. Alex T. Steffen Lecture topics Digital leadership 2030: core competencies for leaders in transition.Rethinking...
