Economist, Philosopher, Management consultant, Transformation researcher & Author

Hans Rusinek

Hans Rusinek is a management consultant, transformation researcher and award-winning author. But above all: a future optimist! He is concerned with the ecological, social and economic transformations that are shaping our economic world. What drives him is the conviction that we have the chance to not only face a disruptively different, but also a better future – for planet, people and lasting profit. His role is that of a bridge builder, combining the perspective of a researcher on the future of work (St.Gallen University) with his experience as a strategy consultant (Boston Consulting Group/BrightHouse), and his involvement in think tanks…
