

Futurologist, Expert on Mobility & Aviation

## Morell Westermann

Morell Westermann analyses the megatrends of the next ten years in the areas of technology, business and society and uses them to develop innovative business strategies for and together with his clients. As an expert on the topics of aviation, electromobility and digitalisation, he points out ways to a CO<sub>2</sub>-neutral society and is involved in various projects for the electrification of aviation. (PV Airports, Electric World Record Flight, Electric Flight Route, etc.). Morell Westermann can be seen regularly at events and congresses as a keynote speaker, moderator and as an expert on German and Swiss television. "Many of the ideas..."
