

Expert on Artificial Intelligence, Scientist & Pioneer

Prof. Dr. Thilo Stadelmann

Thilo Stadelmann is Professor of Artificial Intelligence and Machine Learning at the ZHAW School of Engineering in Winterthur/Switzerland, where he heads the Centre for Artificial Intelligence and its “Computer Vision, Perception & Cognition” research group. He is also co-founder of Alpine AI, a start-up that launches Swiss GPT for companies. Thilo Stadelmann studied computer science in Giessen and Marburg and was awarded his doctorate in 2010 with a thesis on multimedia analysis and voice biometrics at the Philipps University of Marburg. He then worked for several years in the automotive industry in various specialist and management roles on software systems...
