

Molecular biologist, Author & Science Cabaret Artist

Martin Moder

Martin Moder, born in Vienna in 1988, is a renowned Austrian molecular biologist, author and science cabaret artist. After studying microbiology and genetics at the University of Vienna, he conducted research in the field of brain tumor research and rare hereditary diseases. He completed his master's degree in molecular biology in 2014 and successfully received his PhD in 2018. Moders' commitment to science communication is distinguished by his work as a tutor in the participatory lab Vienna Open Lab and his participation in science slams. In 2014, he was crowned the first European Science Slam Champion. As an author, he...
