

Thought Leader, Creative Technologist & Cyber Illusionist

Marco Tempest

Marco Tempest - Creative Technologist, Thought Leader & Cyber Illusionist. Marco Tempest is the Extended Reality Lead consultant for Accenture, a Creative Technologist at the NASA Jet Propulsion Laboratory, a Director's Fellow Alumni at the MIT MediaLab and the Founder and Director of the MagicLab in New York City. As a regular speaker at TED conferences he is known for his work with digital technologies to create immersive, and often astonishing, experiences. Marco is continually looking for innovative ways to use technology to broadcast information and engage audience attention. Marco Tempest has a proven record of using digital technologies to...
