

Entrepreneur of Generation Z, Speaker on AI, Change and the Future of work

Livia Schröder

Livia Schröder is a Swiss entrepreneur, consultant and keynote speaker on the implementation of AI, change and the working world of the future. In her lectures and workshops, she inspires people by communicating artificial intelligence and digitalisation in a way that is understandable, accessible and practical. Technology and change should not be seen as a threat, but rather as an invitation to be curious, to get involved and to be courageous. Livia Schröder studies business informatics, regularly teaches AI courses and wants to share her knowledge, spark curiosity and encourage people to actively embrace the digital future. Livia Schröder Lecture...
