

AI & Sustainability Entrepreneur, Innovator, Leadership expert in Corporate & Startup world

Dr. Matthias Brendel

Matthias Brendel has always been fascinated by enabling sustainability with technology. He studied environmental engineering at the University of Bayreuth and completed his doctorate on CO2 reduction in petrol engines at the Technical University of Munich. His career began in the automotive industry. There he focussed on combustion engines and improving their fuel efficiency. He later switched to developing new business models in the mobility sector, which always had to be digital and sustainable. This was followed by the founding of his start-up Footprint Technologies, an AI company that developed software that enables precise foot measurement with a smartphone and...
